

## **ELO Digital Office USA Announces the New ELOoffice 11**

*Latest version of ECM software for small businesses raises the bar on data analysis, ease-of-use, and security*

**Boston, MA -- October 30, 2017 --** [ELO Digital Office USA](#), enabling businesses to improve collaboration and streamline information management in a digital economy, announced today the availability of ELOoffice 11, the latest version of its entry-level solution for small businesses and independent contractors. New features include improved text recognition and practical templates for day-to-day work with options for analyzing data. ELOoffice now also provides an easy-to-configure data backup function.

[“ELOoffice 11](#) sets new benchmarks for user-friendliness, data analysis, and security,” notes Szilvia Horvath, CEO of ELO Digital Office USA. “From -- enhanced text recognition to cloud-based back-up to our ELO MobileConnector -- the new ELOoffice 11 heightens document management capabilities for small businesses.”

Enabling companies to easily digitize business processes, ELO office 11 is a comprehensive document management systems that centralizes and manages data on a single platform. New features in version 11 include:

- **Optimized text recognition:** Gives users a quick way – with the click of a button -- to transfer document information, enabling them to find their documents in the ELO repository even faster.
- **Enhanced optional repository structure template:** Integrates various functions for data analysis of invoices, contracts, or personnel files, and creates statistics and reports in Microsoft Excel at the press of a button.

- **Innovative data backup function:** Allows users to save their entire ELO repository on the medium of their choice, or in the cloud. Backups can be restored conveniently via the Windows Start menu.
